CAREER OBJECTIVE

Motivated full-stack JavaScript developer skilled in React, Next.js, Express.js, and MongoDB (Mongoose), eager to build scalable web apps and contribute to innovative team projects while enhancing my expertise.

WORK EXPERIENCE

Front End Development • Internship

Feb 2025 - Apr 2025

Madrocket Media & Technology, Virtual

Frontend Developer Intern Contributed to the development of the company's Minimum Viable Product (MVP) using React.js. Collaborated with cross-functional teams to integrate APIs and third-party services, ensuring seamless functionality. Led code reviews, promoting adherence to best practices and enhancing code quality. Designed and implemented responsive UI components, improving user experience across devices. Proactively identified and resolved performance bottlenecks, optimizing application efficiency.

IT Intern • Internship

Dec 2022 - Jan 2023

Flyseas Pvt. Ltd., Patna

During my internship at Flyseas, I was introduced to the fundamentals of web development. I worked with HTML, CSS, and JavaScript to understand how user interfaces are built and styled for different devices. I assisted in making small UI improvements and learned the importance of responsive design, accessibility, and browser compatibility. I was also exposed to the basics of back-end development, including how servers communicate with front-end interfaces and store data using databases. I contributed to testing and debugging simple features and observed the deployment workflow of web applications. This gave me insight into how full-stack applications function in a real-world environment. This internship provided me with a strong foundation in web development and helped me build essential skills like attention to detail, code readability, and effective collaboration. It also encouraged a deeper interest in building scalable and user-friendly websites, setting the stage for my continued growth as a developer.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science & Engineering

2024 - 2027

Oriental Institutes Of Science And Technology, Bhopal, Madhya Pradesh

Diploma, Computer Science & Engineering

2021 - 2024

New Government Polytechnic, Patna-13, Bihar

CGPA: 8.03/10

Secondary (X), CBSE

2021

Nikhil Shyama DAV Public School, Sitamarhi, Bihar

Percentage: 78.60%

TRAININGS / CERTIFICATIONS

Entrepreneurship-cum-Skill Development Programme On Computer Hardware And Networking Maintenance

Jan 2024

Indo Danish Tool Room, Ministry Of Micro, Small & Medium Enterprises, Government Of India, Patna

Completed a specialized training program at Tool Room & Training Centre (TRTC), focusing on advanced manufacturing technologies. Gained hands-on experience in areas such as CNC machining, CAD/CAM design, and tool and die making. The training emphasized precision engineering, practical problem-solving, and industry-relevant technical skills essential for modern manufacturing processes.

IoT Fundamentals: Big Data & Analytics

Aug 2022 - Nov 2022

CISCO, Virtual

Explain the value of data analytics for an IoT solution.
Describe and Apply the data analysis process to solve a problem.
Apply Python scripts to collect, prepare, analyze and visualize or export data.
Apply basic machine learning algorithms.
Apply data visualization and storytelling techniques to communicate results of analysis.
Describe approaches to data management including SQL and No-SQL solutions.
Explain the fundamental concepts behind the main Big Data platforms.

Partner: CLP - Advanced Programming In C

Jan 2022 - Feb 2022

CISCO, Virtual

Evolution of the elements of C language syntax and semantics.
handling a variable number of parameters using the facilities offered by.

low-level I/O in POSIX and MS Windows environments.

memory and string manipulation including I18N issues.

creating multi-processed and multi-threaded environments

(POSIX, MS Windows, C11)

the IEEE-754 floating-point point standard and multi-precision libraries

PORTFOLIO

[GitHub link ↗](#)

[Portfolio link ↗](#)

PROJECTS

[Fitness & Wellness Dashboard ↗](#)

Jun 2025

Designed and built a dynamic, personalized health dashboard to visualize user fitness metrics like activity levels, sleep patterns, and nutrition logs. Leveraged Next.js App Router for optimized, server-side rendered (SSR) pages and created interactive, accessible data visualizations using Chart.js and Framer Motion.

[Personal Portfolio Website ↗](#)

Sep 2024 - Present

Developed a responsive and dynamic portfolio website using Next.js to showcase my skills, projects, and professional experience. The website features a clean and modern design powered by Tailwind CSS, with reusable components and smooth navigation for an enhanced user experience. Implemented server-side rendering (SSR) for improved performance and SEO. Deployed the website on Vercel to ensure scalability and fast loading times

[E-commerce Website ↗](#)

Jul 2023 - Sep 2023

Crafted a high-performance e-commerce site with Next.js and Tailwind CSS, featuring a modern design, seamless UX, and an integrated admin panel with payment capabilities.

SKILLS

- | | | |
|-----------------|-----------------|-----------------------|
| • HTML | • CSS | • JavaScript |
| • Python | • Bootstrap | • Next.js |
| • Tailwind CSS | • Flask | • Django |
| • Express.js | • Node.js | • WordPress |
| • Git | • GitHub | • REST API |
| • Java | • Servlets | • Hibernate ORM(Java) |
| • MERN | • MEAN | • React |
| • Firebase | • C Programming | • TypeScript |
| • SQL | • C# | • Redux |
| • HTML 5 | • CSS3 | • Material UI |
| • MongoDB | • PostgreSQL | • FastAPI |
| • Socket.IO | • Docker | • VS Code |
| • IntelliJ IDEA | • Pycharm | • Axios |
| • Framer | | |

EXTRA CURRICULAR ACTIVITIES

- Participated in a state-level hackathon organized by the Department of Science & Technology, Bihar, and Indian Institute of Technology, Patna
